

ABSTRACT

Al Arda Ayu Firnanda. 2023. "***The Influence of the Cooperative Model The Power Of Two Assisted By Smarter Board Media On The Mathematics Learning Outcomes Of Class II MI Bustanul Ulum Tumapel***". Skripsi. Lamongan Islamic University.

This study was entitled The Influence of the Cooperative Model The Power Of Two Assisted By Smarter Board Media On The Mathematics Learning Outcomes Of Class II MI Bustanul Ulum Tumapel, This research background is the low from studying Mathematics with the average, still under the management of, which still used the minimum teachers, never spoke on the frequency, and also there using traditional media criteria, who have never spoken with a minimum, and also been model of students who have been active learning, and also used to use traditional media model. The purpose of this study was to find out the application of the type-Cooperative model of The Power Of Two smartboard media on class Mathematics learning II and to determine the influence of the Cooperative Type Cooperative Model The Power Of Two helps smart plank media for class Mathematics learning II MI Bustanul Ulum Tulum. This research uses a quantitative type of research by using an experiment research approach, the results of this study were to show the implementation of the Cooperative Type The Power Of Two assisted with smart plank media in class II MI Bustanul Ulum. Through Calculation of the test t (Paied Sample T- Test) was obtained by significant value data (.sig) $0.000 < 0.05$ by this shows the Hore rejected and Ha received. As evidenced by the average value – Pretests 61.81 while the average value of posttest 75.68, experienced an increase of 13.87 with N-Gain by 0.37 which is Medium, so it can be concluded that the implementation of the Type Cooperative Learning Model The Power Of Two has an effect on the results of class II learning Mathematics.

Keywords: *The Power Of Two, Smart Board Media, The Learning Outcomes, Mathematics.*

ABSTRAK

Al Arda Ayu Firnanda. 2023. "**Pengaruh Model Kooperatif Tipe *The Power Of Two* Berbantuan Media Papan Pintar Terhadap Hasil Belajar Matematika Kelas II MI Bustanul Ulum Tumapel**". Skripsi. Universitas Islam Lamongan.

Penelitian ini berjudul Pengaruh Model Kooperatif Tipe *The Power Of Two* berbantuan Media Papan Pintar terhadap Hasil Belajar Matematika di Kelas II MI Bustanul Ulum Tumapel, Latar belakang penelitian ini adalah rendahnya hasil belajar Matematika dengan rata-rata masih dibawah kriteria ketuntasan minimum, guru masih menggunakan model pembelajaran tradisional, tidak pernah menggunakan model pembelajaran yang aktif, dan juga tidak pernah menggunakan media, dan siswa banyak yang berbicara dengan teman nya. Tujuan dari penelitian ini adalah untuk mengetahui pelaksanaan Model kooperatif tipe *The Power Of Two* berbantuan media papan pintar pada pembelajaran Matematika kelas II dan untuk mengetahui pengaruh Model Kooperatif Tipe *The Power Of Two* berbantuan media papan pintar pada pembelajaran Matematika kelas II MI Bustanul Ulum Tumapel. Penelitian ini menggunakan jenis penelitian kuantitatif dengan menggunakan pendekatan penelitian eksperimen, Hasil dari penelitian ini yaitu menunjukkan pelaksanaan dari Model Kooperatif Tipe *The Power Of Two* berbantuan media papan pintar pada kelas II MI Bustanul Ulum. Melalui Perhitungan uji t (*Paired Sampel T- Test*) diperoleh data nilai signifikan(.sig) $0,000 < 0,05$ dengan ini menunjukkan H_0 ditolak dan H_a diterima. Dibuktikan juga dengan nilai rata – rata Pretest 61,81 sedangkan nilai rata-rata posttest 75,68, mengalami peningkatan sebesar 13,87 dengan N-Gain sebesar 0,37 yang berkriteria Sedang, sehingga dapat disimpulkan bahwa penerapan Model Pembelajaran Kooperatif Tipe *The Power Of Two* berbantuan media papan pintar berpengaruh terhadap hasil belajar Matematika kelas II MI Bustanul Ulum Tumapel.

Kata Kunci ,*The Power Of Two*, Media Papan Pintar, Hasil belajar, Matematika.
