

## ABSTRAK

Sumiati.2023. “Pengaruh Penggunaan *Number Card Media* Terhadap Kemampuan Mengenal Angka Anak usia 2 – 3 Tahun Di Pos Paud Kumalasari kecoh Tahun Ajaran 2022/2023”.Skripsi. Universitas Islam Lamongan.

Anak memperoleh pengalaman baru dengan belajar menggunakan kartu angka, kegiatan tersebut akan melatih anak untuk menghafal dan mengingat. Media dan sumber belajar yang monoton menjadi salah satu penghambat anak untuk berkreasi. Sudah saatnya media pembelajaran dimodifikasi sedemikian rupa supaya tercipta suasana belajar yang menarik dan menyenangkan sehingga anak tidak mudah bosan dan bersemangat belajar. Tujuan Penelitian ini untuk mengetahui bagaimana Pengaruh penggunaan *Number Card media* terhadap kemampuan mengenal angka anak dan mengetahui faktor pendukung dan penghambat kemampuan mengenal angka anak usia 2-3 tahun Di pos paud kumalasari kecoh. Penelitian ini menggunakan metode penelitian kuantitatif, dengan metode pretest dan posttest. Berdasarkan hasil penelitian yang telah dilakukan di Pos Paud Kumalasari pada anak usia 2-3 tahun yaitu penggunaan *Number Card Mdia* terbukti efektif dalam kemampuan mengenal angka anak Usia 2-3 tahun Di Pos Paud Kumalasari, dilihat dari hasil penelitian awal pretest yang belum berkembang (BB) 11 anak (48%), Mulai berkembang 5 anak (36%), Berkembang Sesuai Harapan (BSH) 4 anak (16%) dan Berkembang Sangat Baik tidak ada (0%). Setelah diadakan pembelajaran dengan menggunakan *Number card media* terlihat kemampuan mengenal angka anak Usia 2-3 tahun dengan data sebagai berikut yang Belum Berkembang (BB) sudah tidak ada (0%), Mulai Berkembang 6 anak (8%) Berkembang sesuai Harapan 10 anak (55%) dan Berkembang Sangat Baik (BSB) 4 anak (30%). Setelah diberikan pembelajaran dengan menggunakan *Number card Media* diperoleh temuan bahwa kemampuan mengenal angka anak secara keseluruhan mengalami peningkatan, yang awalnya dengan rata-rata hanya 4,6 atau berada pada tabel klasifikasi persentase kurang baik. tetapi setelah dilakukan pembelajaran melalui *Number card Media* kemampuan mengenal angka anak meningkat menjadi 6,95. bisa dilihat bahwa adanya peningkatan sebesar 2.81 pada kemampuan mengenal angka pada saat menggunakan *Number card Media*.

**Kata kunci:** *Number Card media*, Kemampuan mengenal Angka, anak usia 2-3 tahun.

## ABSTRACT

Sumiati. 2023. **"The Effect of Using Number Card Media on the Ability to Recognize Numbers in Children Aged 2-3 Years at the Kumalasari Early Childhood Post Kepoh Academic Year 2022/2023"**. Thesis. Lamongan Islamic University.

Children gain new experiences by learning to use number cards, these activities will train children to memorize and remember. Monotonous media and learning resources become one of the obstacles for children to be creative. It is time for the learning media to be modified in such a way as to create an interesting and fun learning atmosphere so that children are not easily bored and eager to learn. The purpose of this study was to find out how the effect of using Number Card media has on children's ability to recognize numbers and to find out the supporting and inhibiting factors of the ability to recognize numbers children aged 2-3 years at the Kumalasari paud post are kepoh. This research uses quantitative research methods, with pretest and posttest methods. Based on the results of research that has been conducted at the Kumalasari Early Childhood Center on children aged 2-3 years, namely the use of the Media Number Card has proven effective in the ability to recognize numbers for children aged 2-3 years at the Early Childhood Education Center. Kumalasari, seen from the results of the initial pretest research that had not developed (BB) 11 children (48%), 5 children had started to develop (36%), developed according to expectations (BSH) 4 children (16%) and developed very well none (0 %). After learning by using Number card media, it can be seen that the ability to recognize numbers for children aged 2-3 years with the following data has not yet developed (BB) is no longer there (0%), Starting to Develop 6 children (8%) Developing according to the expectations of 10 children ( 55%) and Very Well Developed (BSB) 4 children (30%). After being given learning using Number card Media, it was found that the ability to recognize children's numbers as a whole had increased, initially with an average of only 4.6 or being in a poor percentage classification table. But after learning through Number card Media, the ability to recognize numbers children increased to 6.95. it can be seen that there is an increase of 2.81 in the ability to recognize numbers when using Number card Media.

Keywords: *Number Card media*, Ability to recognize Numbers, children aged 2-3 years.
